Date Adopted: December 20, 2016

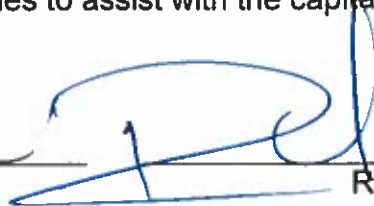

Water System Expansion Policy

Policy objective: To develop a policy to regulate future expansions of the Truro Water Utility in the Village of Bible Hill.

- Any extension or improvement to the water system must be cost neutral to the Village of Bible Hill.
- Any expansion of the water system is subject to regulatory approvals of the Truro Water Utility on the same basis as the Utility approves additions to its existing systems.
- The capital cost of any expansion of the water system shall be paid for by the developers or future users requiring an expansion or improvements of the water system.
- The capital cost of any expansion of the water system required to serve areas of the Village contaminated by salt, nitrates or other pollutants shall be paid by the party responsible for the contamination.
- The capital cost of any expansion shall include, but not limited to the supply, storage, transmission, distribution, pressure control and fire protection requirements of the Utility.
- The Village of Bible Hill shall have the authority to regulate the use of the Utility for Public Fire Protection Services including, but not limited to the installation of fire hydrants.
- The Village of Bible Hill may arrange for funding from the federal /provincial / municipal governments or other agencies to assist with the capital costs of any expansions.
