Re: Event cancellations

Please take note that the following Village public events have been cancelled:

- Christmas Tree Lighting - Saturday, November 28, 2020
- New Year's Day Levee – Tuesday, January 1, 2021

While these holiday events are favorite traditions, looked forward to by residents, participants, and the Village Commission, after careful consideration of the public health circumstances within the Province and the number of youth, families, and seniors that attend the events, the difficult decision has been made to cancel the events for this holiday season in order to best protect public health.

It is with regret that residents cannot join together in celebration for these events, however we are hopeful that we are able to come together to enjoy a regular holiday season next year.

While COVID-19 has spiked in other areas of Nova Scotia, we are not invulnerable and, if not careful, the virus could spread quickly to and through our own neighbourhood. We all have an important role in keeping our community safe.

Let's continue to work together by doing all we can to avoid COVID-19. Wear your non-medical mask, keep at least six feet apart from others, stay home if you feel sick, wash or sanitize your hands often, and avoid crowded spaces where physical distancing is not possible.
